Telephone Execution-only Dealing Service

What is Telephone Execution-only dealing?

You make all investment decisions regarding your portfolio, and ask us to execute the deals. We don't provide you with advice about your investments, but we do provide you with a personal service and access to an experienced team of dealers and administrators. We will give you all the information you need about the latest share prices, indices and ex-entitlement dates, where available, so you can make your own informed decisions.

Is Charles Stanley's Telephone Execution-only dealing right for me?

If you would like a trade executed, you simply provide your instructions by calling us and quoting your account number. In some instances we may specify a minimum investment amount and transactions usually take place whilst you are on the telephone.

Investors who benefit most from an execution-only dealing service are those who prefer to have full control over their investments, and those who value:

- talking to an experienced dealing team with direct access to dealing venues and who work on a client's behalf to achieve the best prices
- first-class administration and the ability to hold funds on account securely
- being able to pay money into their account either by debit card, direct bank transfer or by cheque
- access to trade in a wide range of investment types such as bonds, overseas markets, unit trusts and Open-Ended Investment Companies (OEICs)
- being able to maintain a clear view of their investments through in-depth reporting
- use of our custody and nominee services for UK and overseas securities
- receiving regular publications with information and ideas on investments, market trends and financial services
